Tata Indicom offers a permanent high speed [Photon](#) Exel for your organization's communication infrastructure. Internet is one of the most effective and essential communication tools for any organization.

Photon exel offers a high performance, carrier grade, dedicated connection, which gives you an individual, permanently assigned, uncontested connection or 'port' on Tata Tele Service's Internet backbone network.

It's an ideal solution for businesses that are outgrowing their dial-up and need a dedicated connection for 24-hours-a-day access. It is reliable and cost effective. The service is designed exactly to control costs i.e. Pay for what you need.

Photon exel an internet service offers a premium range of services which equips your Enterprise with dedicated and high performance IP connectivity for running your mission critical applications over the internet.

Photon exel ensures that you are equipped with the speed to stay ahead, even when you are competing against the fastest in the business.
