Hotel South Park goes hi-tech

PNS | Jamshedpur

City-based leading hotel South Park has gone hi-tech by adding new facilities like Wi-Fi on its premises. Only two other hotels in the city have such facilities.

Addressing a Press conference Prabhakar Singh, Managing Director, Hotel South Park, said that in a Wi-Fi service enabled area an individual with a Wi-Fi compatible mobile phone or laptop can access the internet on his gadget without any hassles.

He went on to add that the hotel in an agreement with Tata Teleservices. With the growing demand of this service most of the service industries are offering this facility to their customers, among which the hotel industry stays on the top position.

"We have installed 1 mbps dedicated internet lease line, which will ensure high speed internet facilities at the hotel premises at free of cost," said Singh.

He said the 16-rooms equipped hotel is being given a new look. The well furnished rooms have been further enhanced with LCDs and tea-coffee vending machines. The hotel is providing all these facilities without any increase in the service charges.

"We have witnessed that despite recession hit market the hospitality sector in the city has witnessed a boom time. We too plan to add more rooms to meet the growing demand especially from corporate sector," conceded the Managing Director.

Hotel South Park is a well-known name in the field of hospitality. At a time when various players are venturing in the field of hotel industry, very few can match the quality standards set by South Park.

The hotel is known for its quality services par excellence and makes it a must visit place.

Hotel features 16 well-appointed elegantly furnished rooms with all basic amenities including high-speed Wi-Fi connectivity. The efficient and friendly team assures that all guests have a comfortable and peaceful stay at the hotel. The well furnished rooms and service match the international standards.
